PROJECT INFORMATION

Don't miss this unique opportunity to visit artists at work in their own studios which are open to the public for FREE.

Cheshire Open Studios is celebrating its 20th Year, making it one of the most established art trails in the North West & Cheshire.

“We see a mixed selection of artists working in a variety of art-forms, work spaces & working methods which give members of the public a chance to truly experience something different each year.

(Cheshire Open Studios Project)

Artists will be in their personal working environment to discuss their working processes, creative thoughts and to share their inspiration alongside a display of their work, including sketch books & portfolios. Some will host demonstrations and interactive events. This makes the experience both friendly & informative.

This is a unique opportunity for the public to engage with artists in an informal environment, experience artistic creativity & talent and a great opportunity to commission or buy art at source at

less than gallery prices”.

(Cheshire Open Studios Project)

For some it will be a first to visit an artist's studio and discover what goes on 'behind the scenes'. For others it's an eagerly awaited event to revisit favourites and maybe share ideas, discuss techniques, book a workshop, commission a piece of art for the home, business or gift, or buy work directly - often straight from portfolios!

This year Cheshire Opens Studios has 20 Artists exhibiting artworks in the Cheshire Open Studios ~ Annual "Open" Exhibition kindly hosted by Castle Park Arts Centre closely followed by artists opening their studios to the public from 23rd September.

For details of the exhibition and a full list of the artists involved, including directions to their studios using Google maps and to see images of their work, opening times or to download our online brochure please visit our website or pick up a brochure from libraries or Tourist Information Centres and other locations throughout the region.
